

Golden Start is a daily wellness chew made for Golden Retriever puppies. The first twelve months are when a Golden builds the foundation for a healthy gut, normal immune function, a beautiful coat and healthy joints. We chose every ingredient with the Golden Retriever in mind. Start early and build a foundation that lasts a lifetime.

INGREDIENT PROFILE: WHY EACH ONE IS CHOSEN FOR GOLDENS

Ingredient	Dose	Why It Matters for Goldens
Mushroom Blend (Turkey Tail, Maitake, Cordyceps, Shiitake, Spirulina, Kelp, Beet Root, Barley Grass)	150mg	Early immune support for a growing Golden. Turkey Tail and Shiitake supply beta-glucans that support normal immune function. Maitake supports healthy blood sugar. Cordyceps supports everyday energy and stamina. Spirulina provides protein, B vitamins and antioxidants. Kelp adds natural trace minerals from the sea. Beet Root supports normal circulation. Barley Grass supplies chlorophyll and natural minerals.
Glucosamine HCl (shellfish)	100mg	A large, fast-growing breed puts real load on young hips and elbows. Glucosamine supports healthy cartilage and joint fluid, helping build a strong joint foundation from the start.
MSM	100mg	Supports healthy connective tissue and joint comfort during the rapid growth phase.
Salmon Oil	100mg	Omega-3s support the skin and coat Goldens are known for, and help maintain comfortable, healthy joints as your puppy grows.
Chondroitin Sulfate	75mg	Works with glucosamine to support healthy cartilage, helping build joint structure as your puppy grows.
Turmeric Root	75mg	Natural antioxidant support for a puppy's body through the busy months of rapid growth.
Ashwagandha Root	50mg	An adaptogen that supports a normal stress response. Helps Golden puppies settle into a new home and new routines.
L-Carnitine	25mg	Supports energy metabolism and normal heart function, part of a healthy foundation for life.
Pancrelipase & Papain	25mg / 10mg	Digestive enzymes that support digestion and nutrient absorption during the growth months.
Probiotics (L. casei & L. fermentum)	0.15 BCFU each	Two probiotic strains that support a healthy gut and normal immune function, especially helpful as a puppy moves from the litter to a new home.

WHY THIS FORMULA FOR THIS LIFE STAGE

Life Stage	Age	Key Focus at This Stage
Early Puppy	8 to 12 wks	A healthy gut, normal immune function, support through the move to a new home
Active Puppy	3 to 6 mos	Healthy growth, joint foundation building, coat development
Late Puppy	6 to 12 mos	Healthy connective tissue, energy metabolism, getting ready for adulthood
Transition	12 mos	Move up to Golden Prime for full adult nutritional support

DOSING GUIDELINES

Weight	Daily Dose	Notes
Under 25 lbs	1 chew/day	Start with half chew for first 7 days
25 to 50 lbs	1 to 2 chews/day	Increase gradually after week one
Over 50 lbs	2 chews/day	Most adult Goldens, not typical at this stage
