Golden Years

Senior Mobility Chew

SENIOR 7 YRS+

Golden Years is our most advanced joint formula: 15 ingredients for Golden Retrievers seven and older. The senior years don't have to mean slowing down. Golden Years brings together a generous dose of Omega-3s, two patented collagen compounds, DHA for everyday brain health, Tart Cherry for antioxidant support, and Hyaluronic Acid, a combination we haven't found together in any other senior dog supplement. Because a Golden who has given you everything deserves the very best in return.

INGREDIENT PROFILE: WHY EACH ONE IS CHOSEN FOR GOLDENS

Ingredient	Dose	Why It Matters for Goldens
Omega-3 Fatty Acids	550mg	Our highest-dose ingredient. Supports healthy joints and cartilage, normal heart function, everyday brain health and the full coat Goldens are known for, all through the senior years.
Glucosamine HCl (shellfish)	250mg	A higher dose for Goldens whose joints have carried years of running and retrieving. Supports healthy cartilage and joint fluid.
MSM	250mg	Supports joint comfort and healthy connective tissue as your Golden gets older.
Fish Oil	150mg	A concentrated source of EPA and DHA that adds coat support and everyday brain health for the older Golden.
Boswellia Serrata	100mg	A botanical that supports joint comfort in older Goldens. Works alongside the Omega-3s.
Devil's Claw Root	100mg	A traditional herb that supports comfortable movement in senior Goldens. Rarely found in retail senior supplements.
Chondroitin Sulfate	90mg	Supports healthy cartilage and joint fluid. Helps maintain joint health as the body's own chondroitin naturally slows with age.
Balanced Collagen® (Types I, II, V, X)	50mg	Patented collagen blend that supports healthy joint structure, with collagen types found in different joint tissues.
Kollagen Type 2® (Avian)	50mg	Patented undenatured Type II collagen from chicken, the same collagen type found in the cartilage at the end of a bone. Supports joint comfort and mobility.
Egg Shell Membrane	50mg	A natural source of collagen, glucosamine, chondroitin and hyaluronic acid. Everyday joint nourishment in a single ingredient.
Curcumin	45mg	The active compound in turmeric, more readily absorbed than raw turmeric powder. Antioxidant support for joint comfort in a senior Golden.
EPA	40mg	The Omega-3 most closely tied to joint comfort and easy movement in older Goldens.
DHA	30mg	Supports everyday brain health and helps your Golden stay sharp in the senior years. Not found in most senior joint supplements.
Tart Cherry Powder	25mg	A natural source of anthocyanins for antioxidant support. Rarely found in senior dog supplements. Supports rest and recovery after an active day.
Sodium Hyaluronate (HA)	25mg	The main lubricating part of joint fluid. As Goldens age, their own HA production slows. Adding it supports smoother, more comfortable movement.

WHY THIS FORMULA FOR THIS LIFE STAGE

Life Stage	Age	Key Focus at This Stage
Early Senior	7 to 9 yrs	Joint support, HA for healthy joint fluid, Omega-3s for joint comfort
Mid Senior	9 to 11 yrs	DHA for staying sharp, healthy cartilage, comfortable movement
Late Senior	11+ yrs	Comfort, mobility and whole-body senior vitality

SAFETY & WARNINGS

! DO NOT USE in pregnant or nursing Goldens.

! DO NOT USE in breeding females during an active cycle.

Contains Glucosamine HCl from shellfish. Consult your vet if a seafood allergy is known.

Consult your vet if your Golden is on NSAIDs or blood thinners. Boswellia, Devil's Claw, Omega-3s and EPA may interact with blood thinners.

Senior Goldens with kidney or liver concerns should have vet approval before use.

Give with food. Start with a half dose for the first 10 to 14 days.

Stop and contact your vet if any reaction occurs.

Emergency: ASPCA Poison Control (888) 426-4435
