Golden Glow

Sweet Potato & Honey Bites

Breed-Specific Treat for Golden Retrievers

ALL AGES

Golden Glow is a breed-specific treat made for the Golden Retriever's skin, coat and digestion, the things families notice most. Every ingredient was chosen with the breed in mind, from sweet potato's beta-carotene for healthy skin, to flaxseed's omega-3s for a glossy coat, to ginger's support for normal digestion and a settled stomach. Baked in a human-grade, SQF-certified facility in Austin, Texas.

INGREDIENT PROFILE: WHY EACH ONE IS CHOSEN FOR GOLDENS

Ingredient	Why It Matters for Goldens
Sweet Potato	One of the most nutrient-dense vegetables in canine nutrition. Provides beta-carotene, a precursor to Vitamin A, which supports healthy skin, normal immune function and coat quality. For a breed known for sensitive skin, sweet potato is a natural fit. Its fiber also feeds beneficial gut bacteria and supports digestive regularity.
Oat Flour	A gluten-free, easily digestible carbohydrate base providing beta-glucan fiber that supports a healthy gut. For Goldens, skin and gut health go hand in hand, and oat flour's fermentable fiber feeds the beneficial bacteria that support normal digestion and healthy skin.
Flaxseed	A plant-based omega-3 source (ALA) that supports healthy skin and coat. A Golden's coat shows what is going on inside. Flaxseed's fatty acids support healthy skin and the glossy, dense coat the breed is known for.
Eggs	A complete protein delivering all essential amino acids, along with biotin, a B vitamin that supports healthy skin and coat quality. For Goldens, whose coat is one of the breed's defining traits, biotin in the diet is a smart daily addition.
Olive Oil	Provides oleic acid and natural polyphenols that help maintain the skin's natural moisture barrier. For a breed with sensitive skin, healthy fats that support healthy skin are a smart daily choice.
Honey	Raw honey adds natural sweetness and helps bind each bite, along with trace enzymes and antioxidants. It's a big part of why Goldens come running for Golden Glow.
Cinnamon	A natural source of cinnamaldehyde and polyphenol antioxidants. Goldens love to eat and can put on weight easily. Cinnamon supports normal blood sugar and a healthy metabolism, helping maintain the lean body condition that keeps a Golden active for years.
Ginger	Used for generations to settle the stomach. Supports normal digestion and gut motility, a good fit for a breed that eats with real enthusiasm. Its gingerol compounds also add antioxidant support that complements the skin and coat focus of this formula.
Rosemary Extract	A natural antioxidant preservative that extends shelf life without artificial additives, while adding carnosic acid, a natural antioxidant. No ingredient in our product line is included for just one reason.

WHY THIS TREAT FOR GOLDENS: LIFE STAGE BENEFITS

Life Stage	Age	Key Benefit at This Stage
Puppy	8 wks to 12 mo	Healthy gut, coat foundation, healthy skin as they grow
Young Adult	1 to 3 yrs	Daily coat shine, seasonal skin comfort, healthy digestion
Prime Adult	3 to 7 yrs	Ongoing skin and coat support, healthy digestion
Senior	7+ yrs	Continued coat health, digestive comfort, antioxidant support as your Golden gets older

FEEDING GUIDELINES

Weight	Daily Amount	Notes
Under 25 lbs	2 to 3 treats a day	Introduce gradually over the first week
25 to 50 lbs	3 to 5 treats a day	Ideal for most young adult Goldens
Over 50 lbs	5 to 7 treats a day	Standard for adult Goldens (55 to 75 lbs)
