Golden Shield

Blueberry & Peanut Butter Bites

Breed-Specific Treat for Golden Retrievers

ALL AGES

Golden Shield is a breed-specific treat made with Golden Retrievers in mind. Every ingredient was chosen to do more than reward, so every treat is a chance to do a little good. With blueberries, flaxseed and rosemary extract at its core, Golden Shield gives antioxidant support and supports normal immune function, every treat, every day. Baked in a human-grade, SQF-certified facility in Austin, Texas, with no artificial preservatives, no seed oils and no shortcuts.

INGREDIENT PROFILE: WHY EACH ONE IS CHOSEN FOR GOLDENS

Ingredient	Why It Matters for Goldens
Blueberries	One of the most antioxidant-rich foods there is. The anthocyanins and polyphenols that give blueberries their deep blue color are natural antioxidants. For a breed families want to keep active for a long time, blueberries are an easy way to add antioxidant-rich ingredients to every day.
Oat Flour	A gluten-free, highly digestible carbohydrate base providing soluble beta-glucan fiber that supports a healthy gut. Goldens can have sensitive stomachs and sensitive skin, so a clean, high-quality carbohydrate base is a good foundation.
Eggs	A complete protein source providing all essential amino acids in a highly bioavailable form. The biotin in eggs supports healthy skin and coat, which matters for Golden Retrievers, whose coat is one of the breed's most visible signs of good condition.
Flaxseed	A plant-based omega-3 source (ALA), with fiber and lignans. Its fatty acids support healthy skin, a shiny coat and joint comfort in Goldens. Its soluble fiber also supports digestive regularity and a healthy gut.
Peanut Butter	A natural source of protein, healthy monounsaturated fats, niacin and Vitamin E, a fat-soluble antioxidant that supports normal immune function and healthy cells. All peanut butter in this formula is xylitol-free.
Honey	Raw honey adds natural sweetness and helps bind each bite, along with trace enzymes and antioxidants. Paired with peanut butter, it makes every bite something your Golden comes running for.
Olive Oil	A source of oleic acid and natural polyphenols. Supports absorption of fat-soluble vitamins and adds to coat shine and soft, healthy skin, which matters for a breed where coat quality reflects overall condition.
Rosemary Extract	A natural antioxidant preservative with two jobs. It extends shelf life without artificial additives, and it adds carnosic acid and rosmarinic acid, natural antioxidants. For a breed families care deeply about, antioxidant support in every treat matters.
Blueberry Oil	A concentrated source of anthocyanins and omega-3 and omega-6 fatty acids from blueberry seeds. Made from the whole berry, down to the seed, it adds to the antioxidants in whole blueberries and supports normal immune function as your Golden gets older.

WHY THIS TREAT FOR GOLDENS: LIFE STAGE BENEFITS

Life Stage	Age	Key Benefit at This Stage
Puppy	8 wks to 12 mo	Antioxidant foundation, a healthy gut, normal immune support from day one
Young Adult	1 to 3 yrs	Daily antioxidant support, healthy skin and coat, a good daily habit
Prime Adult	3 to 7 yrs	Ongoing immune and antioxidant support, everyday vitality
Senior	7+ yrs	Extra antioxidant support as your Golden gets older

FEEDING GUIDELINES
